

Wedding Day SURVIVAL KIT

The role of the Chief Bridesmaid is often not fully understood, she is your No 1 helper on the day. It is her job to hold your flowers, straighten your dress, help you dress, and help at the ceremony when necessary.

She will make sure everything you need is at hand and remind you to drink some water, have a snack etc.

She will also arrange your hen's night in conjunction with yourself and others.

Please pass this onto her, she can arrange this prior to the Wedding and give to one of the Mothers or another trusted person.
